CASE STUDY 01 / SPEC WORK

OCTOBER 2026

INSTAGRAM MARKETING REVIEW & GROWTH PLAN

SELL CHIBA, NOT ONLY THE HOTEL.

A public-data analysis and 30-day content strategy for

THE TSUBAKIMORI Hotel & Residence

椿森ホテル＆レジデンス ・ 千葉市中央区

INDEPENDENT CONCEPT PROJECT | PUBLIC INFORMATION ONLY | ENGLISH・日本語補足

PREPARED BY

HATTORI ICHIDAI

ATLAS TO PARADISE・Web Marketer / Creator

Not commissioned by, endorsed by or affiliated with the hotel or its operator. Built from publicly available information; no confidential data used.

00 About this document

本資料について ・ 方法と限界

PURPOSE

This is an **independent spec work**. It shows how ATLAS TO PARADISE reads a hotel's public Instagram, separates what is known from what is assumed, and turns the result into a practical content and measurement plan for hotel and tourism marketing.

The hotel did not request this report. There is no partnership, contract, or client result implied anywhere in it.

DATA USED

- Public profile of @the_tsubakimori_hotel, checked October 2026: **2,234 followers・8 following・56 posts**, business account.
- **26 of 56** posts were viewable and analysed (May 6 – Oct 25, 2026). This is a **sample, not the full archive**.
- Last-90-day window: Aug 1 – Oct 30, 2026 (13 posts).
- Hotel facts: operator press releases, editorial and booking listings.

HOW EVERY STATEMENT IS LABELLED

MEASURED Counted directly from public posts or profile.

DERIVED Calculated from measured numbers (method shown).

HYPOTHESIS A reasoned guess to be tested with real data.

PROPOSAL What we recommend doing.

NOT AVAILABLE Needs the hotel's own Instagram Insights or booking data. **We do not fill these gaps with guesses.**

Read this number carefully

"Likes ÷ followers" is about **1.2%** for the last 90 days. It is only a **reference ratio**. It is **not an engagement rate**, because reach and impressions are private to the account owner.

What is not in this report

Reach, impressions, Reel plays, saves, shares, follower growth, follower country / age / gender, active hours, profile visits, link taps, and bookings. Chapter 05 lists how to obtain them.

Disclaimer

This document is an unsolicited, independent portfolio piece. Hotel names, logos and trademarks belong to their owners and are used only to identify the subject of the analysis. Facility details come from public sources and should be re-confirmed with the hotel before any external use. Prices change by date and plan. No result, uplift, or revenue figure is promised or invented.

日本語メモ これはホテルから依頼されていない、独立した自主制作の営業用ケーススタディです。公開された26投稿のサンプルだけを分析しており、リーチや予約などの非公開データは推測で補っていません。各数値には「実測・計算・仮説・提案・取得不可」のラベルを付けています。

READING GUIDE

Chapters 01–07 explain what the public data shows. Chapters 08–13 turn it into strategy and content. Chapters 14–17 explain how to measure and run it. Chapters 18–20 cover local impact and next steps. An appendix lists the raw numbers and sources.

日本語メモ 章は4つのパートに分かれています。A は現状診断、B は戦略とコンテンツ、C は測定と運用、D は地域への波及と次の一歩です。巻末の付録に元の数値と出典をまとめています。

01 Overview

概要 ・ 先に結論

The hotel's best Instagram moments came from **launch news and local events**, not from room or facility shots. That is the clearest opening for a Chiba-wide content strategy.

2,234
Followers on the public profile (56 posts, 8 following)
MEASURED

26 / 56
Public posts viewable and analysed, May 6 – Oct 25, 2026
MEASURED

35.2
Average likes per post across the 26-post sample (median 23, max 154)
MEASURED

25.7
Average likes, last 90 days: 13 posts (median 24, max 56)
MEASURED

1
Total comments across all 26 analysed posts
MEASURED

≈1.2%
Likes ÷ followers, last 90 days. A reference ratio, not an engagement rate
DERIVED

What the data says

- **Five posts carry about half of all likes.** Launch, event and local-news posts took the top five places DERIVED
- **The typical post is steady.** Median likes are 23 (sample) and 24 (last 90 days); the lower recent *average* reflects fewer standout posts, not a collapse DERIVED
- **Conversation is almost absent.** One comment in 26 posts suggests posts do not yet invite replies or saves MEASURED
- **Cadence is about one post a week**, with 14 of 26 posts timestamped between 01:00 and 05:00 MEASURED

What we recommend

- **Sell Chiba, not only the hotel.** Build a repeatable guide series around Chiba Park, the monorail, food and day trips PROPOSAL
- **Design for saves and shares**, not likes alone: itineraries, maps, "how to get there" PROPOSAL
- **Get the missing data first.** Reach, saves, shares, audience location and link taps decide which markets to target PROPOSAL
- **Track the booking path** with a link-in-bio structure and UTM tags PROPOSAL

THE ONE-LINE STRATEGY

Turn a boutique hotel account into a Chiba travel guide that happens to have a very good place to sleep.

Sources: public Instagram profile and posts (sample of 26 of 56 posts), observed October 2026. Derived figures are calculated from those counts.

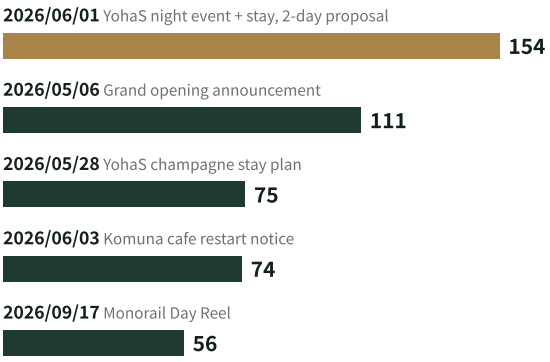

日本語メモ 結論：反応が大きかったのは、客室紹介よりも「開業」「イベント」「地域ニュース」の投稿でした。ホテル単体ではなく、千葉の過ごし方を伝えるガイド型の発信に広げる余地があります。まず非公開のインサイトデータを入手し、その後に市場と投稿設計を決めるのが安全です。

02 The Challenge

課題 ・ 公開データから見えること

FINDING 1 MEASURED

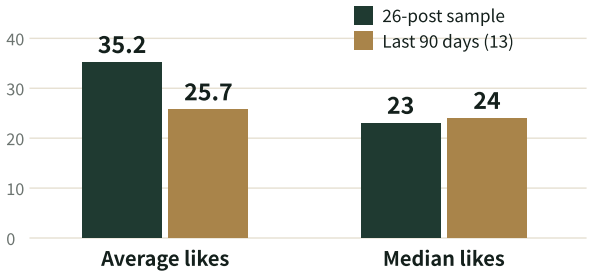

Likes concentrate in a few news-led posts

Top five of 26 analysed posts, by likes. Four of five are launch, event or local-news posts; the fifth is the Monorail Day Reel.

FINDING 2 MEASURED

The average fell; the typical post did not

Likes per post. Both windows have 13 posts at their core; the 90-day window is a subset of the sample, so the figures overlap.

What the top five add up to DERIVED

The five posts total **470 likes** (154 + 111 + 75 + 74 + 56). The 26-post average of 35.2 implies roughly **915 likes** overall, so the top five hold about **51%** of all likes. The average is rounded, so treat the share as “about half”.

The total of the 90-day window is 334 likes, so the 13 earlier posts (May–July) account for roughly **580 likes, an average near 45**. That period includes the opening and event posts.

What this means HYPOTHESIS

- Audiences respond to **things happening in Chiba** (events, openings, local places) more than to the property alone.
- Similar stories can be made **repeatable** as a series instead of one-off announcements.
- Because the median is flat, the account has a **stable base**; the opportunity is lifting the ceiling, not repairing a decline.

What we cannot conclude

We do not know reach, so we cannot say the audience “lost interest”. Posts also differ in format, topic and age. Likes alone cannot show bookings, saves or shares. These points are tested once the hotel’s Insights are available NOT AVAILABLE

Method: counts from the 26 viewable public posts. Derived values use the stated averages; rounding of the 35.2 average makes totals approximate (about ±2 likes).

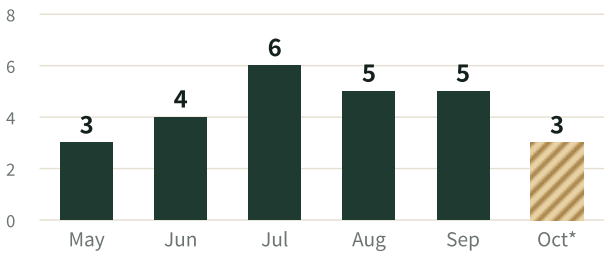

日本語メモ 上位5投稿の合計は470いいねで、全体の約半分を占めます。平均は直近90日で下がっていますが、中央値は23と24でほぼ同じです。つまり「普通の投稿は安定していて、大きく伸びる投稿が減った」と読めます。リーチ等が不明なため、関心が下がったとは断定しません。

02 The Challenge

課題 ・ 投稿頻度・形式・時間帯

FINDING 3 MEASURED

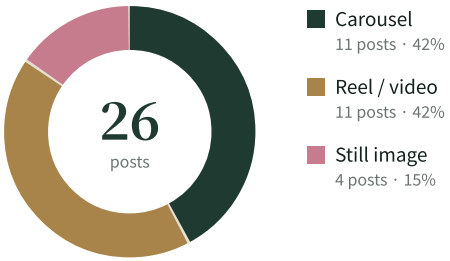

Roughly one post a week

Posts per month in the sample. *October covers Oct 1–25 only. Range: 3–6 posts a month.

FORMAT MIX MEASURED

Carousel and Reel are balanced

26 analysed posts. Likes by format are not available in the source notes, so format performance is not compared here NOT AVAILABLE

FINDING 4 MEASURED

More than half of posts carry an early-morning timestamp

8	6	12
03:00 hour	other 01–05h	all other hours
31% of 26	23% of 26	46% of 26

14 of 26 posts (54%) are timestamped 01:00–05:00, including 8 in the 03:00 hour. This may simply reflect scheduled publishing, so we do **not** claim the time hurts results. It is a test to run with Insights (active hours) HYPOTHESIS

FINDING 5 MEASURED

Almost no comments

One comment across all 26 posts. Captions rarely ask a question, offer a choice, or invite a tip, so replies and user content have little to attach to.

FINDING 6 HYPOTHESIS

Facilities over places

The strongest posts connect to Chiba Park events, the monorail or local venues. Pure property posts are a smaller share of the top group.

FINDING 7 NOT AVAILABLE

The funnel is invisible

Without link taps, profile visits or booking attribution, we cannot yet connect Instagram activity to revenue. Chapter 15 shows how to fix that.

So the challenge is not “more posts”.

It is giving existing posts a **job**: be saved, be shared, start a conversation, and lead to a booking page. Frequency can rise later, once the content system and the measurement are in place.

Sources: public Instagram posts, observed October 2026 (26 of 56). Timestamps as displayed publicly; scheduling tools can shift apparent posting times.

日本語メモ 投稿は月3〜6件、おおむね週1回です。形式はカルーセルとリールがほぼ同数。26件中14件が午前1〜5時の投稿ですが、予約投稿の可能性があるため「時間帯が不利」とは断定せず、インサイトで検証します。コメントは26件中1件のみで、会話や保存を促す設計に余地があります。

03 Brand Positioning

ブランドの位置づけ ・ ホテルから千葉へ

Content should move outward: from the room, to the hotel, to the park and monorail, to Chiba and the routes around it

PROPOSAL

Positioning statements PROPOSAL

> “A calm design-led base between Narita, Tokyo and Boso.”

> “Beyond Tokyo. Discover Chiba.”

> “Chiba is not just a stop before Tokyo.”

The hotel itself describes its idea as **“Unusual Usual”**, an everyday place made special. The strategy extends that to the whole neighbourhood: the park, the monorail, the cafes and the walks between them.

Hotel facts used in this report

Opened	May 7, 2026; operated by the Takuma Kaihatsu group (拓匠開発グループ)
Rooms	26 rooms; all park-view with balcony; smoke-free
Room types	21 m² Standard (20), 34 m² Superior (5), Sauna Suite (1)
Dining	All-day bistro “Call me Anne”; bar “Seiyou”
Location	1-21-32 Tsubakimori, Chuo-ku, Chiba; about 2 min on foot from Chiba-koen monorail station and about 10 min from JR Chiba
Distinct	Reception on the 4th floor facing the monorail line

Why this position is credible

- **Every room faces Chiba Park**, so the park is part of the product, not a backdrop.
- **The monorail runs past the reception**; the hotel’s own press material highlights it as a signature view.
- The operator describes the hotel as the **first boutique hotel in Chiba City** (its own survey, April 2026).
- The operator’s wider neighbourhood project already links hotel guests to nearby shops (Chapter 18).

Rates vary by date and plan. Reference points supplied for this project: from ¥18,000 (Standard) to ¥123,000 (Sauna Suite); not confirmed NOT AVAILABLE

Sources: operator press releases (April 2026), editorial coverage and booking listings. Facility details to be re-confirmed with the hotel before external use.

日本語メモ ホテルの客室はすべて千葉公園ビューでバルコニー付き、レセプションは4階でモノレールが目の前を走ります。この強みを「ホテル単体」ではなく「千葉で過ごす時間」として伝えるのが中心戦略です。設備の詳細は公開情報に基づくため、外部公開前にホテルへ再確認してください。

04 Target Audience

想定ターゲット ・ 5つのセグメント

Five audience segments are worth designing for. They are **working hypotheses** HYPOTHESIS; the hotel's follower and booking data decides their order.

Segment	Trip context	What they need	Best-fit content	How to validate
Inbound leisure traveller	First or second Japan trip; wants more than Tokyo; arrives via Narita or Tokyo	Clear access, a reason to stay in Chiba, simple itinerary	Access reels, 24-hour guide, park-view room	Follower country share; booking-source country
Domestic staycation guest	Short escape for couples or friends; values design, food and quiet	Atmosphere, bistro and bar, sauna suite, nearby walks	Room and balcony stories, cafe and bar content, rainy-day ideas	Reach among followers; saves; plan page views
Event & conference visitor	Attending an event in Makuhari or Chiba; wants a calmer base	Travel time, quiet setting, evening options	Makuhari Event Stay guide, late-night food	Profile visits during event weeks; enquiries
Narita transit traveller	Short layover or first/last night in Japan	Easy route, a taste of Chiba before flying	Narita to Chiba route, half-day plan	Reach to non-followers; link taps
Local & Chiba-area resident	Lunch, dinner, bar, weekend outing, visiting friends	Opening hours, menus, events, collaborations	Bistro and bar series, park events, shop collaborations	Local follower share; reservations; tags

Why not pick one audience now?

A boutique hotel with 26 rooms does not need mass reach; it needs the **right few hundred guests** to find it. But which guests are right depends on facts we cannot see yet: who already follows, who books, and from where.

Choosing countries from national tourist arrival totals alone would be a mistake. The same arrivals data does not show who is interested in a design-led hotel in Chiba City.

A simple way to decide PROPOSAL

1. Pull follower country, age and gender from Insights.
2. Compare with the booking-source data held by the hotel.
3. Rank segments by **overlap** of following and booking.
4. Test content for the top two for 30 days, then review.

Persona sketch to guide writing HYPOTHESIS

"The curious second-timer." Has seen Tokyo and Kyoto. Wants somewhere calmer, with good food and a real neighbourhood. Will save a post if it answers "how do I get there and what do I do?" in under a minute.

日本語メモ ターゲットは5つの仮説セグメントです：訪日個人客、国内ステイケーション、幕張などのイベント来訪者、成田経由の旅行者、地元・千葉周辺の住民。優先順位は、ホテルのフォロワー構成と予約データの重なりで決めます。訪日客の総数だけで国を選ばないことが重要です。

05 Audience Insights

オーディエンス分析 ・ 見えるもの、見えないもの

What public data can and cannot show

Data point	Where it lives	Visible?	Status
Followers, following, post count	Public profile	✓	2,234 / 8 / 56
Likes and comments per post	Public posts	✓	26 posts sampled
Post format and date	Public posts	✓	Carousel 11, Reel 11, image 4
Reach and impressions	Insights	×	Owner only
Reel plays	Insights	×	Owner only
Saves and shares	Insights	×	Owner only
Follower growth over time	Insights	×	Owner only
Follower country, age, gender	Insights	×	Owner only
Follower active hours	Insights	×	Owner only
Profile visits and link taps	Insights	×	Owner only
Bookings from Instagram	Booking system / analytics	×	Needs UTM + booking data

Data request to the hotel PROPOSAL

PRIORITY A · FIRST

1. Account overview, last 90 days
2. Follower country / region, age, gender
3. Follower active hours
4. Per-post reach, plays, saves, shares
5. Share of reach from non-followers

PRIORITY B · NEXT

1. Profile visits
2. External link taps
3. Insights for the top 5–10 posts
4. Follower growth trend

Question 1

Who already listens? Follower location and age show whether the audience is local, domestic or international.

Question 2

What travels beyond followers? Saves, shares and non-follower reach show which posts earn new audiences.

Question 3

What leads to action? Link taps and booking attribution show which content creates bookings, not applause.

Until the data arrives

This report stays at the **public layer**. Where an insight would need private data, it is marked NOT AVAILABLE and no number is invented. When Insights are shared, the analysis in Chapters 02, 04 and 13 is updated first.

日本語メモ 公開情報だけでは、リーチ・保存・シェア・フォロワー属性・リンクタップ・予約などは見えません。ホテル側のインサイトを、優先度A（90日の概要、属性、アクティブ時間、投稿別の指標、非フォロワー比率）から取得し、取れたら分析を更新します。推測で埋めることはしません。

06 Traveler Questions

旅行者の疑問 ・ 検討から共有まで

Content gets saved when it answers a question the traveller was already asking. These questions are a HYPOTHESIS drawn from how people plan trips; search and comment data should refine them.

Stage	The question in their head	Content that answers it	Format	Target action
Dream	“Is there somewhere calm near Tokyo that is not Tokyo?”	Park-view room film, balcony morning, design details	Reel / carousel	**Save**
Plan	“How do I get there from Narita or Tokyo? What can I do nearby?”	Route cards, 24 hours in Chiba, monorail guide, rainy-day ideas	Carousel / Story highlight	**Save / share**
Book	“Is it worth it? What is included? Is it safe and easy?”	Room type comparison, plan explainers, review quotes (with permission)	Carousel / Story	**Link tap**
Stay	“Where do we eat? What is open late? What should we do on day two?”	Bistro and bar nights, neighbourhood walk, in-room guide	Story / Reel	**Reply / tag**
Share	“What was special, and what can I show my friends?”	Guest-moment reposts, tag invitations, photo spots	Story / feed repost	**Tag / UGC**

The gap in today’s feed HYPOTHESIS

The public posts lean toward **announcements and plans**: openings, events, packages. They answer “what is new?” well. They answer fewer of the **Plan** questions (“how do I get there, what do I do?”), which are exactly the ones that earn saves and shares.

Write captions as answers PROPOSAL

- Open with the question, answer in the first two lines.
- Put the key fact (time, route, price range, opening hours) in the image, not only the caption.
- End with one action: save, share, or tap the link.

CORE INSIGHT

A traveller deciding whether to add Chiba to a trip is not looking for a nicer room photo. They are looking for **proof that it is easy and worth it.**

Quick audit checklist for any planned post

Which stage is this? · Which question does it answer? · Is the key fact on the image? · What single action do we want? · How will we measure it?

日本語メモ 旅行者の疑問を「憧れ・検討・予約・滞在・共有」の5段階に分けました。現在の投稿は告知やプラン紹介が中心で、「どう行くか・何をするか」という検討段階の答えが少なめです。保存やシェアを生むのは、こうした疑問に答える投稿です。

Independent concept project · Not commissioned by or affiliated with the hotel

07 Competitive Landscape

競合環境 ・ 旅行目的で比べる

Instead of a hotel ranking, compare by **why the guest is travelling**. Each cluster implies a different content job HYPOTHESIS

Cluster	Typical demand	Typical lodging	TSUBAKIMORI's angle	Content implication
Around Chiba Station	Business and short-stay travellers; shopping and transit	Business and station-front hotels	Calm, park-view, design-led alternative within walking distance of the station	Show the 10-minute walk, the park, the balcony
Around Chiba Park	Park events, culture, slow stays	Boutique stays and the nearby tree-house cafe stay (Komuna)	Position as complementary: urban design stay beside nature stay	Neighbourhood series; two-experience itineraries
Makuhari	Conventions, concerts, sports events	Large hotels and convention-oriented stays	A quieter base after the event, a short ride away	Event-week stay guides; late-night food
Narita	Airport transit, Naritasan visits	Airport hotels	More than an airport bed: a first or last night in a real city	Narita-to-Chiba route and half-day plan
Boso & coast	Nature, resort, seaside, rail trips	Resort and experience lodging	A city base that pairs with Boso day trips	Chiba City + Boso itineraries

What sets the hotel apart MEASURED

- All 26 rooms face Chiba Park, and all have a balcony.
- Boutique design identity; each room type has its own theme colour (operator press release).
- An all-day bistro, a bar and a sauna suite in a small property.
- Walkable to JR Chiba and 2 minutes from Chiba-koen monorail station.

What this means for Instagram

PROPOSAL

- Compete on **experience and place**, not on room count or price.
- Use **Chiba stories** as the differentiator that no single-property competitor can copy.
- Avoid bare price comparisons; at 26 rooms, the aim is fit, not volume.

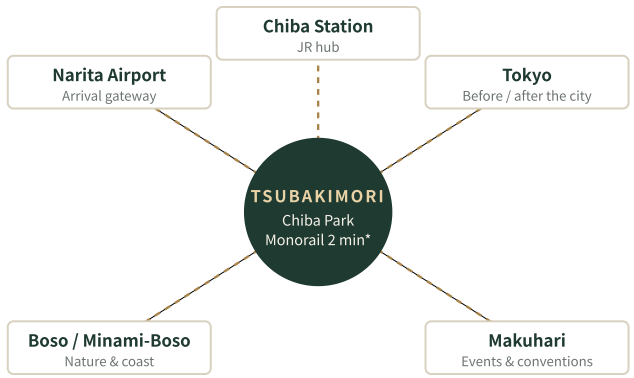

A caution on reviews

Review scores collected at a single moment are snapshots. A new 26-room hotel with a small number of reviews cannot be compared directly with a large hotel that has thousands. This report therefore **does not rank competitors by score**, and no competitor ratings are used.

日本語メモ 競合はホテルのランキングではなく、旅行目的（千葉駅周辺・千葉公園周辺・幕張・成田・房総）で整理します。26室の小さなホテルは価格や客室数ではなく、「千葉公園ビュー」と「千葉という場所の体験」で差別化するのが合理的です。口コミ点数は件数が違うため比較に使いません。

07 Competitive Landscape

競合環境 ・ 千葉のハブとして

Schematic only; not to scale. *Monorail time from Chiba Station to Chiba-koen is about 4 min and the walk from Chiba-koen about 2 min (supplied information; confirm before publishing).

The hub idea PROPOSAL

The operator describes the project as a **modern post-town**: a place where travellers from Narita and Tokyo stop, then spread across Chiba. Instagram is the right place to make that visible.

A visitor should be able to picture **three routes out of the hotel**: Narita and Naritasan, Makuhari and the bay, and Boso and the coast.

Komuna STAY: complement, not rival HYPOTHESIS

The tree-house cafe **Komuna**, on the same park edge and from the same corporate group, has added an upstairs stay for **one party per day**. It offers a very different experience: nature and craft rather than urban design.

Any joint package is an **idea only**. No partnership with TSUBAKIMORI is confirmed, and it should never be described as one.

Concept: Two Days, Two Experiences PROPOSAL

Day 1	TSUBAKIMORI: design and comfort, bistro dinner, bar
Day 2	Komuna STAY: nature and adventure, tree-house cafe
Link	Chiba Park walk between the two

Planning concept only, subject to the operator's agreement and current offers.

How to monitor the landscape monthly PROPOSAL

1 Local accounts
Note which park-area venues post, and how often.

2 Hashtag scan
Check Chiba-related tags for recurring formats.

3 Formats
Log hooks that earn saves across the category.

4 Gaps
List questions nobody answers well yet.

日本語メモ ホテルは成田・東京からの旅行者が千葉全体へ広がる「現代の宿場町」です。椿森コムナ（同じ運営グループ）の宿泊は競合というより補完関係として考えられますが、共同パッケージはあくまでアイデアで、提携済みとは表現しません。

08 Instagram Strategy

インスタグラム戦略 ・ 4つの転換

The account does not need a new voice. It needs a new **job**: move from announcing the hotel to guiding a trip.

Shift	From (what the sample shows)	To (recommended)
1 · Role	Property showcase and news MEASURED	Chiba travel guide with a very good place to stay PROPOSAL
2 · Format	One-off announcements MEASURED	Repeatable series with a name and a posting rhythm PROPOSAL
3 · Signal	Likes as the visible signal; 1 comment in 26 posts MEASURED	Saves, shares and replies as the main signals PROPOSAL
4 · Path	Posts without a measured link to booking NOT AVAILABLE	Every post has one action and a trackable link PROPOSAL

The booking path to build

PROPOSAL

Reel / carousel discover and save

▼

Profile clear bio, highlights for Access, Stay, Chiba Guide

▼

Link in bio tagged links: Rooms, Plans, Bistro, Map

▼

Booking page tracked by campaign tag

Strategy principles

- **One post, one question, one action.**
- **Place first, property second** in at least half of the feed.
- **Show the facts** (time, route, hours) on the image itself.
- **Name your series** so followers know what to expect and can search it.
- **Review monthly**, change one variable at a time.
- **Never overclaim.** Only promote offers and partner terms confirmed as current.

Where Instagram sits in the wider mix HYPOTHESIS

Instagram creates interest and saves; the hotel's own site and booking engine convert. Google search, listings and reviews remain major booking drivers, so the account should **feed** them, not replace them: consistent name, address and photos everywhere.

日本語メモ 戦略は4つの転換です：①ホテル紹介から千葉のガイドへ、②単発告知からシリーズへ、③いいねから保存・シェア・返信へ、④測れない導線から、投稿ごとに計測できる予約導線へ。Instagramは興味を作り、公式サイトや予約システムが成約させます。

09 Content Pillars

コンテンツの5本柱 ・ 配分の提案

Five pillars keep the feed varied but focused. The shares below are a **starting proposal** PROPOSAL to be adjusted after the first 30 days of data.

Proposed share of feed posts. Stories carry more of Pillars D and E.

A — 30%

Chiba Guide

Chiba Park, monorail, food, culture, day trips

Formats: Reel · carousel
Goal: Save · share

B — 25%

The Stay

Park-view rooms, balcony, bistro, bar, sauna suite

Formats: Reel · carousel · stills
Goal: Save · link tap

C — 15%

Access & Planning

From Narita and Tokyo, 24 hours, rainy-day ideas

Formats: Carousel · highlights
Goal: Save · share

D — 15%

Local Community

Neighbourhood shops, events, creators, guests

Formats: Story · reel · collab
Goal: Reply · tag

E — 15%

Offers & Booking

Plans, seasons, direct booking benefits

Formats: Carousel · story
Goal: Link tap

Rule of thumb

Half the feed should be about places and journeys (A + C + part of D). Half can be about the property and offers (B + E). The current public sample leans the other way HYPOTHESIS

Series naming PROPOSAL

- **Chiba in 24 Hours** (Guide / Planning)
- **Park View Mornings** (Stay)
- **The Monorail Minute** (Guide, short Reels)
- **Neighbourhood Notes** (Community)
- **Plan of the Month** (Offers)

Pillar checklist for each post

Pillar · Stage (dream, plan, book, stay, share) · Segment · Format · Hook · One action · Link tag

Logging these six fields for every post makes later analysis of what works fast and fair.

日本語メモ コンテンツは5本柱で設計します：千葉ガイド30%、ステイ25%、アクセス・プランニング15%、地域コミュニティ15%、プラン・予約15%（開始時の提案値）。フィードの半分は「場所と旅」の話題にし、データを見て配分を調整します。

10 10 Content Concepts

10のコンテンツ企画 ・ 1/3

Each concept names its goal, audience, format, **hook** (first 3 seconds or slide 1), structure, call to action and KPI PROPOSAL. Facts such as routes and opening hours must be verified before each post goes live.

01 Tokyo to Chiba

GOAL	Capture travellers who treat Chiba as an add-on to Tokyo.
TARGET	Inbound leisure; domestic
FORMAT	Carousel, 7 slides
HOOK	**“Before you head back to Tokyo, stay one night in Chiba.”**
STRUCTURE	Map, route options, arrival, park view, one-night plan
CTA	Save for trip planning
KPI	Saves, shares, link taps
NOTE	Use station and line names; verify routes and timings before posting.

02 24 Hours in Chiba

GOAL	Show a full, easy day built around the hotel.
TARGET	Inbound leisure; domestic
FORMAT	Reel, 30–40 sec
HOOK	**“One day in Chiba, one park-view room.”**
STRUCTURE	Arrive, park walk, cafe, monorail, bistro dinner, bar
CTA	Save and share
KPI	Plays, saves, non-follower reach
NOTE	Film in one real day; show the park walk and the monorail early.

03 A Room with a Park View

GOAL	Make the core product feel real in seconds.
TARGET	Domestic staycation; inbound
FORMAT	Reel + stills
HOOK	**First 3 sec: the balcony door opens onto the park.**
STRUCTURE	Morning light, balcony, bed, window detail, evening view
CTA	Tap the link for rooms
KPI	Link taps, saves
NOTE	Shoot in natural light on the balcony; never use AI-generated room images.

04 Chiba Monorail Guide

GOAL	Turn a local signature into a repeatable series.
TARGET	Inbound leisure; Narita transit
FORMAT	Short Reel series
HOOK	**“You can watch the monorail from our reception.”**
STRUCTURE	How to ride, where it goes, best viewpoint
CTA	Share with a friend visiting Japan
KPI	Shares, plays
NOTE	Keep each Reel short with a consistent title card so it reads as a series.

日本語メモ 企画1〜4：東京から千葉へ、千葉の24時間、公園ビューの客室、千葉モノレールガイド。各企画に目的・対象・形式・冒頭フック・構成・行動・KPIを設定しています。ルートや営業時間は、投稿前に必ず最新情報を確認します。

10 10 Content Concepts

10のコンテンツ企画 ・ 2/3

05 One Day Around Chiba Park

GOAL	Offer a walkable loop people can screenshot.
TARGET	Domestic; inbound
FORMAT	Carousel + stills
HOOK	**“A walking loop that starts at our door.”**
STRUCTURE	Route map, 4–5 stops, best time of day
CTA	Save the map
KPI	Saves
NOTE	Check the route on foot; put the map on slide 2 so it is easy to screenshot.

06 Local Food Guide

GOAL	Link the stay to the neighbourhood’s food.
TARGET	All; locals
FORMAT	Reel or carousel
HOOK	**“Five places within walking distance, one inside the hotel.”**
STRUCTURE	Map, one dish per stop, how to find it (with shop permission)
CTA	Tag who you would take
KPI	Shares, comments
NOTE	Get each shop’s permission and confirm opening hours before posting.

07 Rainy Day in Chiba

GOAL	Own the “what if it rains?” question.
TARGET	Inbound; domestic
FORMAT	Carousel
HOOK	**“Rain in Chiba? Stay in, and still go out.”**
STRUCTURE	Indoor ideas: museum, cafe, bistro, bar; plus a slow-morning plan
CTA	Save for bad weather
KPI	Saves
NOTE	Verify hours of indoor venues; add a “plan B” slide.

08 Narita to Chiba

GOAL	Reach travellers before their first or last night.
TARGET	Narita transit; inbound
FORMAT	Carousel
HOOK	**“Land at Narita. Sleep in a park-view room tonight.”**
STRUCTURE	Arrival options (verify before publishing), half-day idea, Narita-san add-on
CTA	Save and share
KPI	Non-follower reach, saves, link taps
NOTE	Confirm current transport options and timings before publishing.

日本語メモ 企画5〜8：千葉公園の散歩ルート、地元グルメガイド、雨の日の千葉、成田から千葉へ。成田発の企画は、到着方法を投稿前に確認してから公開します。

10 10 Content Concepts

10のコンテンツ企画 ・ 3/3

09 Makuhari Event Stay

GOAL	Win event visitors who want a calmer base.
TARGET	Event & conference visitors
FORMAT	Carousel / Story
HOOK	**“After the event, somewhere quiet.”**
STRUCTURE	Route to the event area, late-night food, check-out tips
CTA	Tap the stay plan link
KPI	Profile visits in event weeks, link taps
NOTE	Align with event calendars; never imply a tie-up with organisers.

10 Two Days, Two Experiences

GOAL	Show Chiba as a two-night destination.
TARGET	Domestic; inbound
FORMAT	Carousel
HOOK	**“Day 1 design. Day 2 forest.”**
STRUCTURE	Itinerary idea linking the hotel, the park and the Komuna tree-house stay (concept only)
CTA	Comment: which first?
KPI	Comments, shares
NOTE	Needs the operator’s agreement; present as an itinerary idea, not a package.

Which to produce first HYPOTHESIS

Concept	Save / share	Effort	Booking fit
01 Tokyo to Chiba	High	Med	High
02 24 Hours in Chiba	High	High	High
03 A Room with a Park View	Med	Med	High
04 Chiba Monorail Guide	High	Low	Med
05 One Day Around Chiba Park	High	Low	Med
06 Local Food Guide	Med	Med	Med
07 Rainy Day in Chiba	High	Low	Med
08 Narita to Chiba	High	Med	High
09 Makuhari Event Stay	Med	Low	High
10 Two Days, Two Experiences	Med	Med	Med

Qualitative judgement from the traveller-question analysis (Chapter 06), not measured performance.

Suggested first four

02 24 Hours in Chiba, **08** Narita to Chiba, **01** Tokyo to Chiba, **05** One Day Around Chiba Park.

They combine high save potential with direct relevance to booking, and they test the strategy’s central claim that Chiba itself is the draw.

Concept 10 depends on the operator’s agreement and must not imply a confirmed partnership.

日本語メモ 企画9・10と、優先順位の目安です。最初に作るなら、24時間、成田から千葉へ、東京から千葉へ、千葉公園の散歩ルートの4本がおすすめです。優先度は実績値ではなく、保存・シェアの見込みと手間の定性的な判断です。企画10は運営側の承諾が必要な構想段階です。

11 30-Day Content Plan

30日間の運用プラン ・ 全体像

Four weeks, four jobs: **show value, enjoy Chiba, answer questions, drive action.** The plan is a proposal PROPOSAL sized to the account's current rhythm of about one post a week.

Week	Job	Pillar	Feed posts (2 per week)	Stories	Primary signal
Week 1	**Show the hotel's value**	B · The Stay	Reel: A Room with a Park View Carousel: Park View Mornings	3–4 frames: balcony, bistro, reception view	Saves; link taps to Rooms
Week 2	**Enjoy Chiba**	A · Chiba Guide	Carousel: One Day Around Chiba Park Reel: Monorail Minute	3–4 frames: park walk, monorail, cafe stop	Shares; non-follower reach
Week 3	**Answer traveller questions**	C · Access & Planning	Carousel: Tokyo to Chiba Carousel: Rainy Day in Chiba	3–4 frames: Q&A stickers, route cards	Saves; replies
Week 4	**Turn interest into action**	E · Offers · A · Guide	Carousel: Plan of the Month Reel: 24 Hours in Chiba	3–4 frames: plan details, direct link	Link taps; booking-page visits

Two ways to start PROPOSAL

Lean	**1 feed post a week** (4 total): keep the strongest post of each week; add 2–3 Story frames. Best if capacity is tight.
Standard	**2 feed posts a week** (8 total, 5 carousels and 3 Reels), plus 3–4 Story frames a week.

Frequency starts at a sustainable level and rises or falls with the data. Quality and answerability matter more than volume.

Weekly rhythm

- **Plan** Monday: confirm facts, shots and captions.
- **Publish** twice, at test times (Chapter 15).
- **Engage** reply to every comment within a day.
- **Review** Friday: five-minute check of saves, shares, link taps.

Checkpoints

Day 0

Record the baseline: reach, saves, shares, link taps, follower growth from Insights NOT AVAILABLE

Day 14

Mid-point review: which hooks and formats earned saves? Adjust weeks 3–4.

Day 30

Compare with the baseline; decide frequency, pillar shares and the next month's tests.

日本語メモ 30日間は4週：①ホテルの価値を見せる、②千葉を楽しむ、③旅行者の疑問に答える、④行動につなげる。開始は無理のない頻度（週1本のリーン案、または週2本の標準案）で、データを見て増減します。0日・14日・30日に見直しを行います。

11 30-Day Content Plan

30日間の運用プラン ・ 投稿リスト

Standard option: the eight feed posts PROPOSAL

#	When	Concept	Format	Hook	CTA	Link tag
P1	W1 · early	A Room with a Park View	Reel	Balcony door opens onto the park	Link in bio: Rooms	`reel_parkview`
P2	W1 · late	Park View Mornings	Carousel	“Good morning, Chiba Park below.”	Save	`car_mornings`
P3	W2 · early	One Day Around Chiba Park	Carousel	“A walking loop that starts at our door.”	Save the map	`car_parkloop`
P4	W2 · late	Monorail Minute	Reel	“Watch the monorail from reception.”	Share	`reel_monorail`
P5	W3 · early	Tokyo to Chiba	Carousel	“One night in Chiba before Tokyo.”	Save	`car_tokyo`
P6	W3 · late	Rainy Day in Chiba	Carousel	“Rain? Stay in, still go out.”	Save	`car_rainy`
P7	W4 · early	Plan of the Month	Carousel	“What is included, in one swipe.”	Link in bio: Plans	`car_plan`
P8	W4 · late	24 Hours in Chiba	Reel	“One day, one park-view room.”	Save and share	`reel_24h`

Hooks are drafts. Replace any floor or distance with confirmed facts before publishing. Link tags feed the campaign naming in Chapter 15.

Story plan, per week PROPOSAL

- **Frame 1** Today in the park: one image and one fact.
- **Frame 2** Question sticker: “Rain or shine for your Chiba day?”
- **Frame 3** Behind the scenes: bistro, bar, reception view.
- **Frame 4** Link frame to the matching plan or page (weeks 3–4).

Engagement routine PROPOSAL

- Reply to every comment and DM within a day.
- Ask one question per caption to invite answers.
- Pin the best guide post to the profile.
- Save the best questions as next month’s topics.

Two tests inside the 30 days PROPOSAL

Time-of-day test

Publish posts P1–P4 in one slot and P5–P8 in another, chosen from the account’s active hours in Insights; compare saves and reach per post.

Hook test

Alternate a question hook and a statement hook on similar content; compare saves and shares. Four posts per variant before drawing any conclusion.

日本語メモ 標準案の8投稿とリンクタグ、Stories計画、返信ルーティンです。フックは草案なので、階数や距離などの事実は確認してから公開します。30日の中で「投稿時間帯」と「フックの型」を検証します。

12 Creative Direction

クリエイティブの方向性

Visual language PROPOSAL

- **Natural light, park greens, soft pink accents**, echoing the hotel's own pink-and-green design base (inspired by the Chiba city flower, the Oga lotus).
- **Calm pacing:** slow, steady camera moves; nothing frantic.
- **Place and detail together:** each post includes one wide place frame (park, monorail, street) and one close detail.
- **Real facts on screen:** walking time, route name, opening hours.

Caption formula PROPOSAL

1. **Question** the traveller is asking.
2. **Answer** in the first two lines.
3. **Detail** that proves it (time, place, season).
4. **One action:** save, share or tap.
5. **Tags:** 4–6 specific tags, not generic ones.

Hook library (first 3 seconds / slide 1) PROPOSAL

"Before you head back to Tokyo…" "Land at Narita. Sleep in a park-view room."

"Five places within walking distance." "Rain in Chiba? Do this." "The monorail passes our reception."

"One day in Chiba, in 30 seconds."

Do

- Show real distances and times.
- Photograph real rooms, views and food.
- Credit shops and creators.
- Add on-screen text to every Reel.

Don't

- Use empty words like "luxurious" without proof.
- Use AI images to depict real rooms or views.
- Promise partner offers not confirmed as current.
- Post guests' photos without permission.

Accessibility & rights

- Alt text on every image.
- High-contrast on-screen text.
- Captions and subtitles on video.
- Licensed audio only.

TONE OF VOICE

Warm, quiet and specific. Like a local friend who knows the best bench in the park, and says so plainly.

日本語メモ ビジュアルは、自然光・公園の緑・やわらかなピンクを基調に、ホテル自身の色づかい（千葉市の花オオガハスがモチーフ）と合わせます。キャプションは「疑問→答え→根拠→行動」の順。実在の客室・景色・料理はAI画像で代用せず、実際に撮影します。

13 International Communication

海外向けコミュニケーション

Five starting markets are worth testing. They are HYPOTHESIS, not conclusions; **priority comes from the hotel's own follower and booking data**, not from national arrival totals.

Market	Content angle	Language & format	Lead assets	Validate by
Taiwan	Easy access, monorail, park, local food, trip itineraries	Traditional-Chinese subtitles and captions	Map-led route reels; short Q&A	Follower share; engagement from Taiwan accounts
United States	Design-led stay, room and balcony, Tokyo-Narita-Chiba itinerary	English Reels	Room walk-through; "Beyond Tokyo" carousel	Booking-source share; link taps from the US
Australia	Park, nature, local experiences, video-led content	English video, light humour	Day-in-Chiba Reels; experience clips	Reach from Australia; saves
United Kingdom	Architecture, design, history and culture	English captions with cultural context	Design and history carousels; local-art features	Saves; profile visits from the UK
Canada	Reassurance, reviews, nature and slow-travel itineraries	English, French subtitles optional	Stay itineraries; guest-review quotes (with permission)	Reach from Canada; enquiries

Language workflow PROPOSAL

1. Write English as the master caption.
2. Draft translations with AI, keeping facts and prices in yen.
3. **Native-speaker review** for tone and accuracy.
4. Publish bilingual captions or subtitles, then log responses by language.

Rules for global posts PROPOSAL

- Explain routes with names of stations and lines, not only minutes.
- Show currency in yen; avoid stale conversions.
- Put the key fact in the image so translation does not hide it.
- Do not run market-targeted ads until data supports the market.

The decision rule

Overlap beats volume. A country that both follows the account and books rooms outranks a country that merely sends many tourists to Japan. We test the top two markets for 30 days with tailored hooks and subtitles, then review PROPOSAL

日本語メモ 台湾・アメリカ・オーストラリア・イギリス・カナダを最初の検証市場の仮説とします。どの国を優先するかは、訪日客の総数ではなく、ホテルのフォロワー構成と予約データの重なりで決めます。多言語は、AIで下訳し、ネイティブが確認してから公開します。

14 KPI Framework

KPIの設計 ・ 認知から成果まで

Baseline first PROPOSAL

Without private data there are **no honest targets** yet. This framework does not state improvement rates, because none can be defended from public information. Record 30 days of baseline, then set targets stage by stage.

Two ratios, kept apart

Reference ratio (public): likes ÷ followers, about 1.2% for the last 90 days.
Engagement rate (private): (likes + comments + saves + shares) ÷ reach, available only from Insights.

Metric	Definition	Source	Stage
Reach / non-follower reach	Accounts that saw content; share from non-followers	Insights	**Awareness**
Reel plays	Plays and average watch time	Insights	**Awareness**
Saves per post	Saves ÷ reach	Insights	**Interest**
Shares per post	Shares ÷ reach	Insights	**Interest**
Profile visits & follower growth	Visits; net new followers	Insights	**Interest**
Website link taps	Taps on the bio link and Story links	Insights + tagged links	**Action**
Booking-page sessions	Visits from Instagram campaigns	Web analytics (UTM)	**Action**
Instagram-attributed bookings	Bookings and revenue from tagged traffic	Booking engine	**Outcome**

What good looks like PROPOSAL

- Share of reach from non-followers rises as guide posts are added.
- Saves and shares per post rise faster than likes.
- Link taps follow save-led posts within days.
- Tagged bookings can be traced, even if few at first.

Warning signs

- Likes rise while saves, shares and link taps stay flat.
- Reach rises only among existing followers.
- Plays are high but profile visits are not: the hook works, the profile does not.

日本語メモ KPIは「認知→関心→行動→成果」の4段階です。非公開データがない現時点では、根拠のある改善目標は立てられないため、まず30日のベースラインを取ります。公開の「いいね÷フォロワー」は参考比率で、リーチを分母にした正式なエンゲージメント率とは別物です。

15 Measurement Strategy

測定戦略 ・ UTMと検証

Campaign tag scheme PROPOSAL

```
utm_source=instagram
utm_medium=social
utm_campaign=chiba_24h
utm_content=reel_24h
```

Use the same four fields every time. **campaign** = series or month; **content** = the individual post (see link tags in Chapter 11).

Link-in-bio structure PROPOSAL

1. **Rooms** · tagged by post
2. **Plans & direct booking**
3. **Bistro & bar**
4. **Access & map**

Separate links make link taps readable by intent, not just as a single number.

Experiments to run PROPOSAL

Test	Hypothesis	Variable	Run	Success signal
Time of day	Posting near active hours lifts reach	Two publishing slots	2 weeks each	Reach and saves per post
Hook type	A question hook earns more saves than a statement	Hook wording	4 posts per variant	Saves ÷ reach
Format	Carousels win for planning content; Reels for discovery	Same topic, two formats	3 pairs	Saves vs plays
CTA wording	“Save for your trip” beats “See more”	Final line	4 posts per variant	Saves and link taps

Weekly PROPOSAL

Five-minute check: reach, saves, shares, link taps, new comments. Note anything unusual.

Monthly PROPOSAL

One-page report: baseline vs month, best and worst posts, test results, next month’s changes.

Quarterly PROPOSAL

Strategy review: pillar shares, market priorities, partner collaborations, budget.

Data hygiene rules

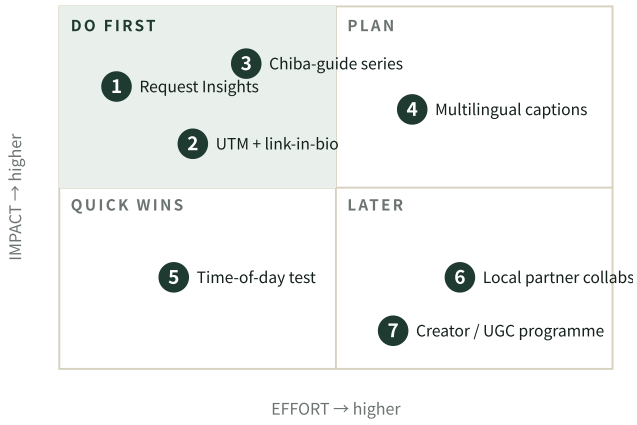

- Change one variable at a time
- Minimum 4 posts per variant
- Same naming every time
- Log the time and format of every post
- Export Insights monthly

Instagram alone may not capture every booking influenced by it. Tagged links, a booking-form question (“How did you hear about us?”) and review of direct and search traffic together give a fuller picture.

日本語メモ 計測の基本は、UTMタグ（instagram / social / キャンペーン名 / 投稿名）と、目的別に分けたリンクインバイオです。時間帯・フックの型・形式・CTA文言を一度に1つだけ変えて検証します。Instagramだけで予約への影響を完全には測れないため、予約フォームのアンケートなども併用します。

16 Strategic Recommendations

戦略提言 ・ 優先順位とロードマップ

Qualitative placement of the seven actions by expected impact and effort HYPOTHESIS

The seven actions PROPOSAL

1. **Request Insights** (Priority A list, Chapter 05).
2. **UTM tags and link-in-bio** (Chapter 15).
3. **Chiba-guide series**, starting with the first four concepts.
4. **Multilingual captions** for the top two markets.
5. **Time-of-day test** using active hours.
6. **Local partner collaborations** with park-area shops.
7. **Guest and creator content programme** with permissions.

NOW · DAYS 0–30

- Obtain Insights and set the baseline
- Set up tagged links
- Publish first four guide posts
- Start Story question routine

NEXT · DAYS 31–90

- Run time and hook tests
- Launch Chiba in 24 Hours as a series
- Add subtitles for the top two markets
- First two local collaborations

LATER · 90 DAYS+

- Guest and creator programme
- Seasonal series (lotus, autumn, events)
- Joint itineraries with partners
- Quarterly strategy review

What we would not do

Increase posting volume before the content system and measurement exist.

Buy followers, run giveaways for engagement counts, or chase trends unrelated to Chiba.

Describe confirmed partnerships, offers or results that have not been verified.

日本語メモ 提言は7つ：インサイトの取得、UTMとリンク設計、千葉ガイドシリーズ、多言語キャプション、投稿時間帯テスト、地元店舗との連携、ゲスト・クリエイター投稿の活用。まず0〜30日でデータとリンクの土台を作り、その後にテストと連携へ進みます。

17 AI-Powered Workflow

AI活用の制作ワークフロー

AI speeds up research, drafting and reporting. **People stay responsible** for facts, taste and approval. It does not guarantee results PROPOSAL

1 Collect

Gather public data and Insights exports

AI: Organises files and tables
Human: Verifies every number

2 Analyse

Classify posts by theme, format and pillar

AI: Suggests labels, summarises
Human: Checks labels and reasoning

3 Research

Competitor and local-information scan

AI: Drafts summaries
Human: Confirms hours, terms, prices

4 Plan

Concepts, scripts, hooks, calendar

AI: Generates options
Human: Chooses and edits

5 Localise

Multilingual captions and subtitles

AI: Drafts translations
Human: Native-speaker review

6 Create

Photography, video, graphics

AI: Supports edits and layouts
Human: Directs; shoots real places

7 Publish

Schedule and post with tags

AI: Prepares checklists
Human: Approves every post

8 Measure

Collect Insights; build the report

AI: Aggregates and charts
Human: Interprets and decides

9 Improve

Monthly proposal and next tests

AI: Drafts proposals
Human: Sets priorities

Guardrails

- **No AI imagery for real rooms, views or food.** These are always photographed.
- **Every fact is checked** (hours, routes, prices, partner terms) before publication.
- **Confidential data** is shared with AI tools only with the hotel's permission.
- Translations are reviewed by a native speaker.

Why this helps a small hotel team

HYPOTHESIS

- Faster monthly reporting, so decisions use data while it is fresh.
- More options per concept without more meetings.
- Multilingual drafts that a reviewer only needs to polish.
- Consistent logging of what was posted and why.

The cycle

Collect → Analyse → Research → Plan → Localise → Create → Publish → Measure → Improve → (back to Collect with the next month's data)

日本語メモ AIは調査・下書き・集計を速くしますが、事実確認・センス・承認は人が担当します。実在の客室・景色・料理にAI画像は使わず、必ず撮影します。成果を保証するものではなく、小さなチームでも月次の改善サイクルを回すための道具です。

18 Regional Business Impact

地域への波及効果

A hotel account that promotes the neighbourhood sends guests, and attention, to **local businesses**. That is also the strongest long-term story for the hotel HYPOTHESIS.

Chiba asset map for content MEASURED

Nature & parks
Chiba Park, Chiba Zoological Park

Culture & history
Chiba City Museum of Art, Chiba Shrine, Kasori Shell Mounds

Transit
Chiba Urban Monorail, Kominato Railway

Events & sports
Makuhari Messe, ZOZO Marine Stadium

Sights & views
Chiba Port Tower, Naritasan Shinshoji and its park

Food & drink
Local restaurants and sake breweries; park-area cafes and bakeries

Day-trip regions
Boso and Minami-Boso, Narita area

Seasonal hooks
Park events, the Oga lotus season, autumn colour (verify dates)

The neighbourhood link already exists

The operator's area project, the **Neverland concept**, positions the hotel as the base for walking around Chiba Park. Its press release describes **"NEVERLAND CREDIT"**: a coupon for hotel guests, ¥500 × 2 (¥1,000 in total), for use at participating shops nearby.

Verify before promoting: current conditions, participating shops and validity NOT AVAILABLE. Do not advertise it as fixed until confirmed.

Who benefits HYPOTHESIS

Hotel	Stronger reasons to stay, more saves, a richer feed
Shops & cafes	New visitors who found them through the account
Transit & sights	More visits to the monorail, park and museums
City of Chiba	A fuller picture of Chiba as a destination, not a transit stop

How content creates the loop PROPOSAL

Guide posts featuring local places → Guests visit and tag venues → Venues reshare to their audiences → New followers find the hotel

Care points

Ask permission before featuring a venue or guest. Credit them clearly. Keep venue information current. Do not imply sponsorship, partnership or endorsement that does not exist.

日本語メモ 千葉公園・モノレール・美術館・神社・幕張・房総など、発信できる地域資源を7つのテーマで整理しました。運営グループの「ネバーランド構想」では宿泊者向けクーポン（500円×2枚）が案内されていますが、現行条件を確認するまで広告に確定情報として載せません。店舗や宿泊者の掲載は許可を取って行います。

19 Key Takeaways

重要なポイント

1 Launch and event posts earn the most

Evidence: Five posts hold about half of all likes; four are news-led.

Action: Make local news a series, not a one-off.

2 The typical post is steady

Evidence: Median likes are 23 (sample) and 24 (last 90 days).

Action: Raise the ceiling with guide content instead of repairing a decline.

3 Conversation is nearly absent

Evidence: 1 comment across 26 posts.

Action: End captions with questions and add Story question stickers.

4 The hotel has a provable, rare asset

Evidence: All rooms face Chiba Park; reception looks onto the monorail.

Action: Use it in every pillar, not only in room posts.

5 The funnel is not yet visible

Evidence: Reach, saves, link taps and bookings are private.

Action: Request Insights and add tagged links first.

6 Do not guess; set a baseline

Evidence: Likes ÷ followers (about 1.2%) is a reference only.

Action: Record 30 days, then set targets stage by stage.

IF YOU READ ONLY ONE PAGE

The account already has the hotel's best asset: the park, the monorail and a very specific place. The next step is to make Instagram work as a Chiba travel guide, and to measure the path from saves to bookings.

What success looks like PROPOSAL

- Saves and shares per post rise faster than likes.
- A growing share of reach comes from people who do not yet follow.
- Tagged link taps appear, week after week.
- The team can explain which post led to which action.

No numeric uplift is promised; it is set after the baseline.

What could go wrong HYPOTHESIS

- Facts go stale (routes, hours, offers).
- Posting volume outruns the team's capacity.
- Chasing likes over saves and shares.
- Partner offers described before they are confirmed.

日本語メモ 要点：①開業・イベント系の投稿が強い、②普通の投稿は安定している、③コメントはほぼない、④「全室公園ビュー」と「レセプションからのモノレール」という独自の強みがある、⑤成果への導線はまだ見えない、⑥推測せずベースラインを取る。数値の改善率は約束せず、ベースライン取得後に設定します。

20 Conclusion / Contact

結論と次の一歩

The hotel does not need a bigger account. It needs a **clearer job for each post**, the missing data, and a booking path it can see.

1
Share Insights

A 30-minute review of the Priority A data (Chapter 05). Analysis in Chapters 02, 04 and 13 is updated first.

2
Agree the 30-day pilot

Choose the lean or standard option (Chapter 11) and confirm facts for the first four posts.

3
Baseline and review

Set the baseline on day 0, review on day 14 and day 30, and plan the next month with data.

What a pilot would include

PROPOSAL

- Baseline and account audit from Insights
- Content calendar and eight feed concepts
- Hook and caption library, bilingual drafts
- Tracking set-up guidance (tagged links, link-in-bio)
- One-page monthly report with next-step proposals

Scope and fees are discussed after the first conversation. Nothing here is a commitment on results.

A final note on honesty

This is an independent concept project built only from public information. It makes no claim of partnership, commission or past results with the hotel. Please treat the hypotheses as hypotheses, and the private metrics as unknowns until the hotel chooses to share them.

日本語メモ 結論：必要なのはアカウントを大きくすることではなく、投稿ごとの役割・不足データ・見える予約導線です。次の一歩は、①インサイトの共有、②30日パイロットの合意、③ベースライン取得と振り返り。本資料は公開情報だけの自主制作で、提携・受託・実績の主張はありません。

00 Appendix

付録 ・ 元データ・計算方法・出典

Source numbers MEASURED

Item	Value	Source
Followers / following / posts (profile)	2,234 / 8 / 56	Public profile, Oct 2026
Posts analysed	26 of 56 (May 6 – Oct 25, 2026)	Public posts
Format mix	Carousel 11, Reel / video 11, image 4	Public posts
26-post likes	avg 35.2, median 23, max 154	Public posts
26-post comments	1 total	Public posts
Monthly posts (May–Oct 25)	3, 4, 6, 5, 5, 3	Public posts
Last 90 days (Aug 1 – Oct 30)	13 posts; 334 likes; avg 25.7; median 24; max 56; 1 comment	Public posts
Early-morning timestamps	14 of 26 between 01:00 and 05:00; 8 in the 03:00 hour	Public posts
Top 5 by likes	154 (Jun 1), 111 (May 6), 75 (May 28), 74 (Jun 3), 56 (Sep 17)	Public posts

How derived numbers were calculated DERIVED

- **Reference ratio**: 25.7 average likes ÷ 2,234 followers ≈ 1.15%, shown as about 1.2%. Not an engagement rate.
- **Top-five total**: 154 + 111 + 75 + 74 + 56 = 470.
- **Estimated total likes**: 35.2 × 26 ≈ 915 (range about 914–916 given rounding).
- **Top-five share**: 470 ÷ 915 ≈ 51%.
- **Earlier 13 posts**: 915 − 334 ≈ 580 likes, average near 45. This assumes the 90-day window is the latter 13 of the 26 posts (Aug–Oct 3 + 5 + 5 = 13; May–Jul 3 + 4 + 6 = 13).
- **Early-morning share**: 14 ÷ 26 ≈ 54%; 8 ÷ 26 ≈ 31%.

Sources & verification MEASURED

- Public Instagram profile and posts of the hotel (observed Oct 2026).
- Operator press releases on the hotel opening and area project (Apr–Jun 2026).
- Editorial coverage (travel magazine stay report) and booking-site listings for room sizes and amenities.
- **Operator name:** Takuma Kaihatsu group, written 拓匠開発 in Japanese.

To confirm with the hotel before external use: room counts and sizes, floor locations of reception, bar and sauna suite; current rates and plan names; NEVERLAND CREDIT terms; any partnership wording.

Glossary

Reach: unique accounts that saw a post. **Impressions**: total views, including repeats. **Save**: a person bookmarks a post for later.

Engagement rate: engagement ÷ reach (private data). **UTM**: tags added to a link so analytics can attribute visits. **Non-follower reach**: share of reach from people who do not follow.

日本語メモ 付録には、元の数値、計算式、出典の一覧を載せています。運営会社名は「拓匠開発グループ」です。客室数・階数・料金・ネバーランドクレジットの条件などは、外部に出す前にホテルへ再確認してください。
